LuMay AI | Governed AI for the Business of Law

SIX PRODUCTS. ONE GOVERNED FOUNDATION.

MORE INFO

Intake Flow

Captures intake, structures facts, applies firm rules, and carries approved evidence through records, demand, and settlement.

Virtual Paralegal

Verifies citations, quotations, pincites, and authority against approved sources, then routes exceptions for attorney review.

BillingGuard

Checks invoice, rate, approval, and evidence readiness before e-billing, while showing blocked value and who needs to act.

BillingOps

Turns governed 3E and Fabric data into evidence-backed answers, forecasts, and actions across billing, collections, and cash.

OCG Compliance

Converts client guidelines into approved rules, checks timecards and proformas, and uses rejection history to prevent repeat issues.

Metrics Insights

Provides governed answers from approved 3E reports and metrics while preserving authoritative definitions, sources, and review controls.
